- **Government Sec school Booganahalli in Dharmapuri**
10th - 74% April - 2016

PROJECTS

Project Title: Lazy Classification — Python, pandas, scikit-learn

- ML model predicts student laziness accurately, guiding timely academic support and showcasing ML's role in student success.
- GitHub: [Lazy Classification](#)

Project Title: Web Scraping Florida Polytechnic University Directory — Python, BeautifulSoup

- Automated extraction of faculty data from Florida Polytechnic University directory using Python and BeautifulSoup. Parsed HTML, collected names, departments, emails, and phone numbers, organized into a CSV for analysis.
- GitHub: [Web Scraping Florida Polytechnic University Directory](#)

SKILLS

- Python
- Excel
- SQL
- Power Bi
- web scrap
- Jupyter Notebook
- Machine learning
- Data collection and cleaning
- Communication
- Data Analysis
- Data Science
- Data Modeling
- Data Mining and Data Warehousing

AWARDS

- Python intermediate-Solo learn.
- SQL - Solo Learn .
- Python for Data Science-Solo learn.
- Udemy Microsoft Excel Masterclass for Data Analysis - 2023

LANGUAGES

- Tamil
- English

HOBBIES & INTEREST

- Learn New skills
- Daily New Task
